

INTRIM

Bespoke Moulding Profiles

www.intrimmouldings.com.au

Making Interiors Spectacular.

From humble beginnings

Operating from the single garage of a residence in Campbelltown in 1987 and then later enduring a factory fire in 1992, Intrim has evolved to become Australia's leading manufacturer and creators of finely crafted, quality architectural mouldings of distinction. With manufacturing and warehousing facilities in Sydney, Melbourne and Brisbane, Intrim is well positioned to supply Australia wide. We guarantee 5 days from order to despatch for our standard timber moulding range meaning you receive your mouldings sooner.

Create "WOW"

The Intrim vision is to have a part in every truly magnificent building project by providing architects, interior designers, builders, homeowners and renovators with a product that will empower them to achieve their goal of making their project spectacular. With the realisation of this vision, Intrim are helping individuals reach their personal goals and are supporting communities throughout the globe.

While not qualified interior designers, our team have unparalleled knowledge of our profile range and are always available to provide expert advice on profiles that will suit the interior you need to achieve.

Making Interiors Spectacular

We know that your interior is something you are proud of, something you own and are a part of so make your space a masterpiece with decorative timber mouldings and profiles. You deserve to have the look, feel and flow you want and we are passionate about creating spectacular interiors. So we're in this together, right? Select your interior mouldings early in the design or renovation process to ensure you achieve the interior that will be the cause of many 'WOW' moments.

Making Interiors Spectacular – this is the very reason for our existence.

Be Trimspirational

Intrim have been supplying architectural building products of distinction for over twenty three years. In keeping with our team mission to exceed expectations through continuous improvement and customer interaction we have recently upgraded our manufacturing and showroom facilities in Sydney, Melbourne and Brisbane to provide more effective service. **We guarantee 5 days** from order to when your materials are despatched.

Intrim Manufacturing Facility

WE CARE ABOUT THE ENVIRONMENT AND CERTIFIED TIMBER

Many timber mouldings suppliers will tell you in good faith that they source their supplies from 'sustainable' or 'managed' sources but without an independent certification system there is no way to verify this. If you don't know the source of your timber mouldings you may well be part of the problem. Intrim are FSC (Forestry Stewardship Council) certified which means that products we use to manufacture our timber profiles come from well managed forests that provide environmental, economical and social benefits.

GET IT RIGHT WITH OUR EFFICIENT SAMPLE SERVICE

Samples of our standard range of profiles available for immediate despatch. We know how important it is that you get the selection of your skirting board, architrave or timber moulding profile correct. Request up to 5 free profile samples either on our website or by speaking with one of our friendly team and we'll have them on your doorstep within 48 hours.

Making your profile selection

1

YOUR INTERIOR STYLE

Determine the type and style of interior you would like to achieve. Is it a Hamptons, Edwardian, Georgian, French Provincial, Art Deco, modern, contemporary or Colonial Victorian?

2

SELECT A PROFILE

Turn to your chosen interior style section in this catalogue and select a profile. Remember that there is some cross over between interior styles and you may wish to choose a profile from another section that is different to your interior style. We can also custom make profiles to your individual design if you are unable to find a profile to meet your specific interior requirements.

3

REQUEST A SAMPLE

To aid you in the decision process, samples are available for all standard mouldings range and are supplied free of charge. These will be despatched within 12 hours. Simply order online at www.intrimmouldings.com.au or call 1800 622 081.

4

CHOOSE YOUR TIMBER

Will your moulding be painted with a solid colour such as white or with a clear which reveals the grain and colour of the timber? If painting with a solid colour use Finger Joint Pine or MR Medium Density Fibreboard. FJ Pine is the material of choice for builders and renovators as it is more durable and moisture resistant than MDF. MDF is used for budget sensitive projects. Materials such as Victorian Ash, Meranti, Blackbutt, Spotted Gum, American Oak are suitable if you would like to see the natural timber grain and colour once clear coated.

5

PRIMING

Specify a primed option as a time and cost saving option prior to delivery to site. This means that your mouldings will arrive to site sanded and primed ready for installation.

6

SUPPLY

Intrim's efficient manufacturing process means that your timber mouldings will be despatched within 5 days from order.

Did you know?

For larger projects we can pre finish with a colour of your choice. This means that once installed, the painter only has to fill nail holes, sand and apply final coat. This can sometimes save weeks of a wet trade on site.

7

**SAVOUR your
'Spectacular Interior'**

What gets said about Intrim

"The high quality finish on their mouldings with the unique primer has been an absolute winner with our fixout and painting team"

Hilton
Project Manager

"They have a keen and passionate team, that is highly responsive to our specific requirements"

Tiho
Luxury Home
Builder

"Short turnaround times and meeting deadlines are key to the smooth delivery of our projects. Intrim deliver when they say they will"

Gavin
Carpenter

"From the receptionist to the sales people that I had the pleasure of speaking to, I was made to feel like an important customer even though it was only for one house. They were extremely efficient in providing me with quotations, and when I got around to place the order, they got the goods made and delivered to me within 3 days instead of the 10 days that I was advised"

Jennifer
Home Owner

Hamptons

Hamptons style is defined by casual, relaxed beachside living but done in a classic and very sophisticated way. The look is bright and breezy, plenty of natural daylight with discreet window treatments to really let the light pour in.

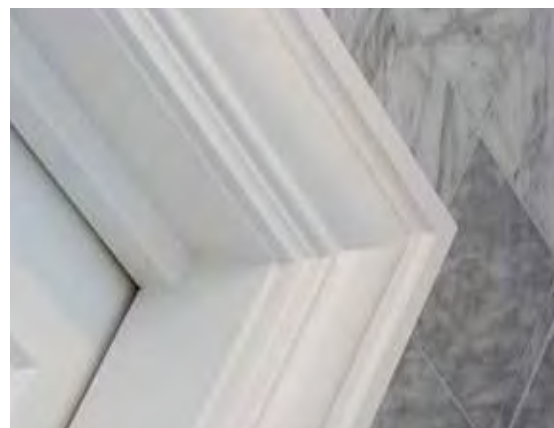

PROJECT FOCUS

Hamptons Residence

Opulence in the Oatlands

A Hamptons style classic home celebrates summer and encourages effortless movement between the cool interior and the outdoors.

Location: Oatlands

It's casual beach living, with classic elegance and style maximizing the use of natural daylight. This magnificent home in the heart of the Sydney suburb of Oatlands is the epitome of a Hampton style classic with no detail overlooked.

Intrim Mouldings partnered with the client providing timber mouldings to create the classic hamptons style look including skirting, timber architraves, mouldings for wainscoting to complete this flawless interior.

PROJECT FOCUS

Hamptons Residence

Beach House Beauty

A stunning, bespoke Beach House residence where 'old styled beach cottage' is perfectly aligned with the clean sophistication of a 'modern day retreat'.

Location: Collaroy

Located just 200m from Collaroy Beach and Long Reef Point, this home is designed to take advantage of the abundant sunshine and sea breezes. Intrin Mouldings manufactured and supplied internal decorative timber mouldings throughout this project which included skirting boards, architraves, skirting block, chair rails, sill nosing, door jamb and lining board in finger jointed pine.

Edwardian & Georgian

PROJECT FOCUS

Classic Georgian Residence

Gracefully Georgian

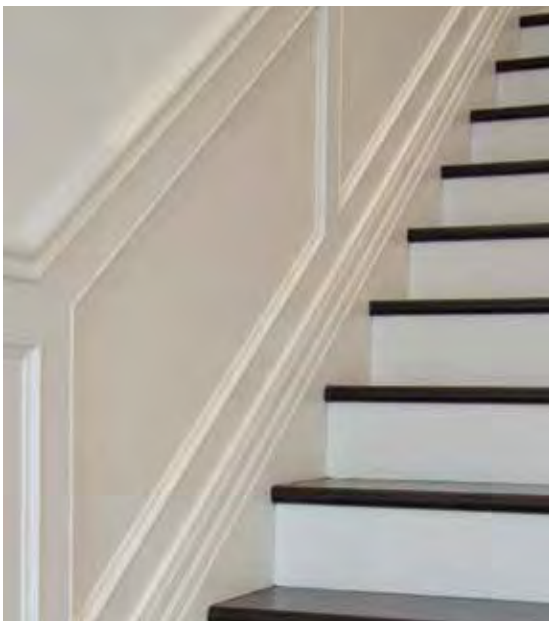

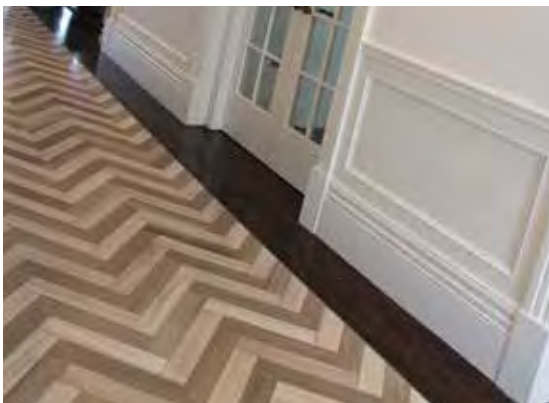

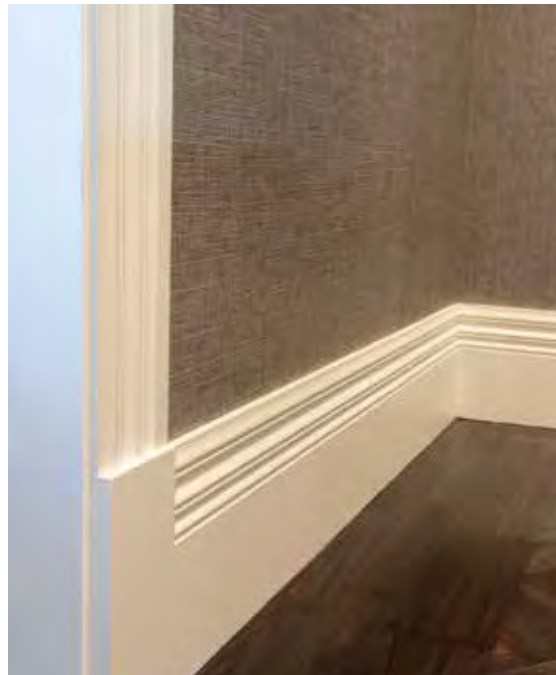

The classic grandeur of this Georgian style residence makes you compelled with a sense that you are in a country estate.

Location: Bellevue Hill

Beautiful period details enrich the grand interiors, with soaring ornate ceilings, wainscoted walls and bay windows create a sense of timeless elegance.

Intrim Mouldings were applied extensively throughout this project and are a stand out dimension to the interior of many projects across Australia. Our mission is “Making Interiors Spectacular” and one which we are passionate about.

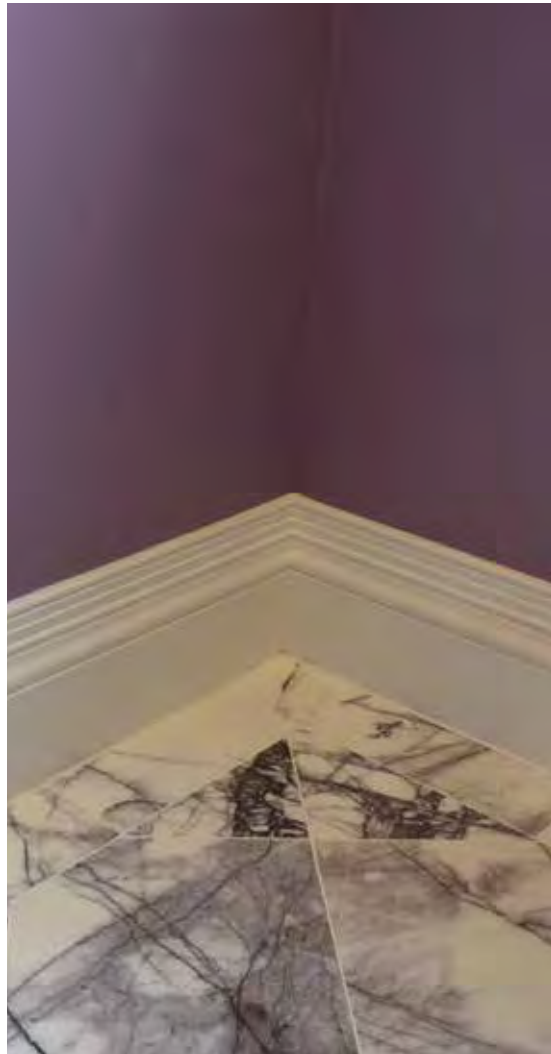

Step into Stateliness

PROJECT FOCUS

Location: Manly

The interior of this stately and opulent residence in Manly is awe inspiring. The utmost epitome of craftsmanship has been displayed in every detail in this house. Intrim played an integral part in suggesting a complimentary profile of skirting board, architrave and skirting block to create a stunning interior.

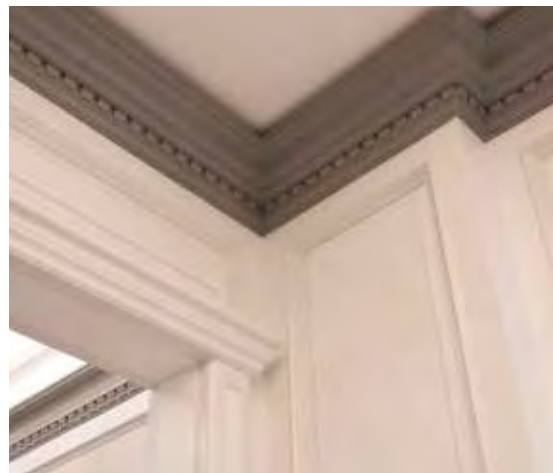

PROJECT FOCUS

Intercontinental Hotel

The Ritz

Location: Double Bay

This prestigious 5 star hotel, formerly The Ritz Carlton of Double Bay, was recently restored and refurbished to its former glory. With over 45 timber mouldings profiles required to be replicated to match existing profiles including wainscoting, chair rails, Skirting boards and architraves, Intrim Mouldings manufactured to precision, delivering on tight time frames.

French Provincial

François Inspiration

PROJECT FOCUS

Location: Greenacre

The French Provincial style is admired for its symmetrical design, classic proportions, and decorative elements, it is commonly associated with the reigns of England's King Georges I through to III and remains a prevalent influence in many Australian homes.

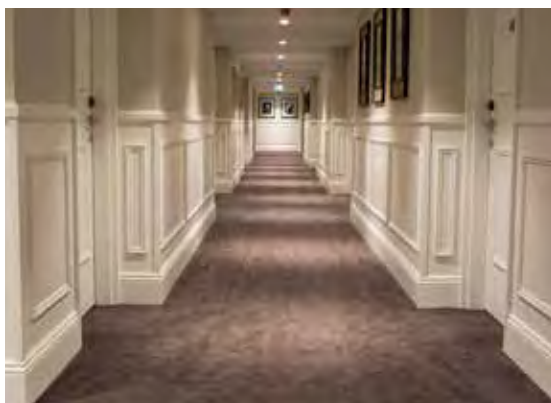

PROJECT FOCUS

Miramare Gardens

Magic at Miramare Gardens

Intrim Mouldings utilised to create a French Provincial Interior of Sophisticated Grandeur and Elegance.

Location: Terrey Hills

Set amongst beautifully landscaped gardens, this stunning boutique accommodation and function centre recently extended their facilities to include a five star accommodation and function centre.

Intrim Mouldings Skirting Boards, Architraves, Chair rail and inlay moulds were used to accompany a stunning interior which included wainscoting panelling.

Modern Contemporary & Art Deco

PROJECT FOCUS

Contemporary Art
Deco Residence

Deco at Darling Point

Location: Darling Point

Art Deco was a pastiche of many different styles, sometimes contradictory, united by a desire to be modern. Art Deco was influenced by the bold geometric forms of Cubism; the bright colors of Fauvism and of the Ballets Russes; and the updated craftsmanship of the furniture of the eras of Louis Philippe and Louis XVI; and this beautiful home at Darling Point is the embodiment of these features.
